PROYECTO VALLE DE NACO

Date 2-20-95

Substance ceramic

Lot Number PVN 185/07

Object censer handle.

Cat No 185/07-8

Multiples? (a, b, c, etc.)

Cat by. 60

Drawn by. 35

Field Description

Paste Group (censers + figurines): B Thickness 10 mm

Handle width 40 cm

Form (censers):

Height 44 mm

Handle thickness 0.9 cm

Width ~~17.5 mm~~ 6.3 cm

Diameter

Full Verbal Description

Portion of ladle censer with one strap & attachment of elongated U-strap handle. Some white on all surfaces suggests items may have ~~been white slip~~ white slip, but bc of erosion, it is difficult to tell. The small glob of clay used to join the 2 parts of the strap is seen, as is the place of attachment of the lower strap to the ladle. The excess clay used to join the handle to the ladle is visible at the break. Piece appears unaltered by fire, or heat.

height shows a relatively thick firing core.

The first thing I noticed when I stepped
 out of the car was the smell of
 the sea. It was a fresh, clean
 smell that I had never before.
 I had been told that the air was
 good here, but I didn't realize it
 would be so good. The smell of the
 sea was everywhere, and it was
 so strong that I could almost
 taste it. I had heard that the
 water was clean, but I didn't
 know it would be so good. The
 smell of the sea was the best I
 had ever smelled. It was a
 smell that I would never forget.
